| Max CBD (CBD + 0.877*CBDA) | | | 140.97 | 49.34 | 1409.73 | 14.7 | Pass |
| Other Cannabinoids | | | 0.00 | 0.00 | 0.00 | 0.0 | |

Notes:**RL - Reporting Limit**

* Zero indicates the analyte was not detected subject to the RL

Max THC and Max CBD are calculated values based on the weight loss of the acid group assuming complete decarboxylation of the acid to the neutral form

Max CBD should be within 80-120% of claim for product.

Max THC must be <0.30% to Pass.

For products made in the UK Max THC must be less than 1 mg/package.

Products with THC free claims may not have any measurable amount of Max THC present.

BANNED SUBSTANCE TESTING**METHOD:** Samples of the item were extracted and analyzed according to in-house methods for nutritional supplements by qualitative instrumental screen using ultra-high-performance liquid chromatography / high-resolution mass spectrometry (UHPLC/HRMS) in Accordance with ISO/IEC 17025:2017 Validated Standard Operating Procedure. Method detection levels, which vary based on compound and matrix analyzed, are estimated to be in the 2-500 ng/g range for most compounds in most items.**TESTING MENU:**The testing menu covers 505 compounds including WADA Prohibited Substances and other prescription, over-the-counter, and illicit drugs not banned in sport. Details are available at <https://www.bscg.org/certified-drug-free-testing-menu-wada-prohibited-list-and-more/>.**RESULTS:**

No compounds from the testing menu were detected in the item.

CONTAMINANTS - MICROBIOLOGICAL AGENTS**METHOD:** AOAC 991.14, 990.12, 2003.07, 2014.05, 2016.01 in Accordance with ISO/IEC 17025:2017 Validated Standard Operating Procedure.**RESULTS (cfu/g, ND, or Absent/Present):****LIMITS - Finished Products/Ingredients, Botanical Extract**

| Test | Result | USP | ANSI 173 | AHPA | CBCC |
